LET
THE
LIFE
OUT

House plants make people feel calmer and more optimistic.

Studies have shown that hospital patients who face a window with a garden view recovered more quickly than those who had to look at a wall.

LET
THE
LIFE
OUT

House plants can improve air quality.

Plants can remove a variety of toxic air emissions including ammonia, formaldehyde, carbon monoxide, benzene, xylene and trichloroethylene. Buy a plant, better your life. 

LET
THE
LIFE
OUT

House plants can make you healthier.

Indoor plants can reduce fatigue, coughs, sore throats and other cold-related illnesses by more than 30 percent, partially by increasing humidity levels and decreasing dust. Buy a plant, better your life.

A new take on "pharming"

Pharming : *Get-togethers without parents
where teens barter legal drugs and get high.*

Parties are a new social twist that contribute to the growing problem of prescription drug abuse, which has worked its way into pop culture via message boards, song lyrics and even T-shirts.

For more information please visit AdCouncil.org or call (212) 922-1500
