503 W. 28th Avenue  
Spokane, WA 99203  
June 5, 2002

Mr. John Laney  
RealNetworks  
2408 Elliot Avenue  
Seattle, WA 98101

You may remember interviewing me during the first week of July, last summer. Afterwards we talked about my schedule for the coming year and I informed you that my plans were to seek employment in Seattle after graduation. You told me that if I was still interested to contact you about a the possibility of employment with RealNetworks. As of June 13th, I will have graduated, and am very interested to continue our conversation.

Though I can offer only limited experience, I feel I can also offer abundant energy, genuine enthusiasm, and hard work. What I seek is not just any job, but one with an innovative software developer like RealNetworks. My goal is to work in a challenging, creative, and dynamic environment where I can build upon my existing graphic and technical skills.

I have enclosed an updated resume, and a sampling of some of my work. If you know of any openings in your department this summer, I would be very interested in meeting with you to discuss it. I can be available anytime that your schedule allows time.

Sincerely,

Greg Martin
